headspace Programs

Groups

- People usually find they get different things from coming, this might include connecting with others, exploring new interests and building life skills

Peer support groups

- At headspace, support groups are groups of young people who gather to share lived experience of mental health challenges

Advisory Committees

- These committees provide feedback directly to the services and promote services at headspace

Please note most of our groups are suitable for young people aged 16-25. Young people under the age of 18 we require parent/guardian consent to engage with the headspace group program. If you are under the age of 18 and wanting to engage with the group program please make contact with Olivia Hunt or Sarah Rijs to discuss further.
