

education and employment assistance

Why access education and study support through headspace Craigieburn?

These services are specially designed to support young people with mental health concerns to work in regular jobs and jobs that they are passionate about. This service includes helping young people to feel safe with an employer who can respect wherever you are in your mental health and recovery journey.

headspace Craigieburn is proud to work with Campbell Page and Jesuit Social Services to provide these supports to young people.

What might you talk to a Vocational Support Worker or Individual Placement Support Worker for?

- Discuss and explore work, study or training options
- Make a plan to work toward your vocational goals
- Develop a strong resume
- Prepare and assist you to apply for work and attend interviews
- Build your confidence in finding a job or taking steps to work toward your career

Vocational support is available for young people aged 16-25 years

Online vocational services can also be found at headspace.org.au/work-and-study
