What You'll Gain

- ✓ Confidence in yourself and your ideas
- ✓ New creative and teamwork skills
- ✓ A safe space to connect and be heard
- ✓ A sense of achievement
- ✓ The chance to make a positive impact

This is a fun, hands-on
program where you'll use
photography to explore topics
that matter to young people —
identity, belonging,
friendship, challenges,
strengths and hopes for the
future.

You'll work together in a
supportive group, learn new
skills, and create something
meaningful.

The program helps you build confidence, express yourself
and connect with others in a relaxed, supportive
environment.

If you ever want extra support, friendly staff can help
point you in the right direction — but there's no pressure
and no expectations.
